Strategic Strength	

Posting Details

Position Summary	The Beirowski laboratory is looking for a motivated technician for assistance with biochemical and histological work. We are a newly established neuroscience laboratory in the Hunter James Kelly Research Institute. We are studying the mechanisms of axonal support by glial cells, and axon degeneration itself, using techniques on the molecular, cellular, and organismal level. The technician duties will include performing Western blotting, dissections, embedding, sectioning, immunostaining and imaging techniques, as well as assisting preparing solutions. Also, the candidate should be open to assist with further additional experimental need of the laboratory as necessary. Attention to detail, excellent record keeping, compliance with laboratory practice and procedures, precision in executing techniques and interest in achieving high quality scientific results are essential. Previous hands-on laboratory experience (>1 year) using at least a couple of the above technique is required.
Position Category:	Researcher
Minimum Qualifications	Hands-on laboratory experience (>1 year) is required. Please do not apply if you have never personally performed any of the duties described in the position summary. The candidate must also have computer experience, especially with MS Excel. Cloning experience is preferred. The ideal candidate will have a proactive attitude and a will to learn and execute experimental work following the PI's instructions.
Preferred Qualifications	Attention to detail, excellent record keeping, compliance with laboratory practice and procedures, precision in executing techniques and interest in achieving high quality scientific results are essential. Previous hands-on laboratory experience (>1 year) using at least a couple of the above technique is required.
Physical Demands	
Salary Range	\$23,000 - \$30,000
Multiple Positions Available?	No
Work Hours	
FTE	1.0
Campus:	Downtown Campus

Special Instructions to Applicants Please provide cover letter, CV/Resume, and three references with contact information (email and phone#. Previous supervisors' contacts are preferred). The cover letter should contain information why you are interested in the position.
