

Leandro Marziali

Post-Doctoral Research Scientist, HJKRI,
Feltri Lab

Dr. Marziali received his degree in Biochemistry from the University of Buenos Aires in 2009, Buenos Aires, Argentina.

In 2010 joined the laboratory of Dra. Juana Pasquini at the School of Pharmacy and Biochemistry of the University of Buenos Aires (IQUIFIB-CONICET). He worked in his PhD project involving the study of the combined effects of Transferrin and Thyroid Hormone on CNS myelination and oligodendrocyte maturation. In April 2016 received his PhD in neuroscience.

In May 2016 was appointed as Postdoctoral Research Scientist in Dr. Feltri's laboratory at the Hunter James Kelly Research Institute for studying the role of p38gamma on myelination and oligodendrocyte maturation.
