

Yannick Poitelon,
Postdoctoral Research Scientist,
HJKRI

Dr. Yannick Poitelon received his Masters in Human Pathology from Aix- Marseille University, France (2005), focusing his thesis on Neuromuscular Disorders – “Pathophysiological mechanisms of Lamin A/C associated Charcot-Marie-Tooth disease.”

He then completed his Ph.D. degree in Medical Genetic at Aix-Marseilles University, France (2009). His doctoral research paper was "Exploration of animal and cellular models of AR-CMT2A."

In 2008, Dr. Poitelon carried out his fellowship training at the Vascular Biology Unit, Instituto de Biomedicina de Valencia, Spain. He then joined DIBIT – Neuroglia Unit, San Raffaele Institute, Milan, Italy and completed his Postdoctoral fellowship there (2011).

In 2011, Dr. Poitelon was appointed as Postdoctoral Research Scientist in Dr. Feltri's laboratory at the Hunter James Kelly Research Institute. Dr. Poitelon brings to HJKRI his expertise on myelin in the central and peripheral nervous system.
